

# **Product Data Sheet**

#### **Product**

### **Sinopec Truckwash Detergent**

#### Summary

### **Product description**

Sinopec Truckwash Detergent is formulated with a new generation water-based detergent and contains specially selected surfactants and corrosion inhibitors. It is designed for cleaning the exterior surfaces of trucks and other vehicles without damaging paintwork. It can be applied manually or used in high-pressure cleaning equipment, where it provides optimum performance.

Available sizes

PAIL - 18L

DRUM - 200L

BC 10001

## **Applications**

Sinopec Truckwash Detergent is suitable for use in:

- Cleaning tenacious dirt and grime from heavily soiled vehicles, such as trucks and buses, used in road transport
  operations.
- Cleaning contaminants, such as coal dust and soot, encountered in off-highway vehicle applications in mining, earthmoving and similar operations.
- Cleaning trams and trains, as well as passenger cars and other light vehicles.
- Hand-washing operations using a 1 to 5% solution in water, applied using a sponge or cloth.
- High-pressure cleaning or foaming equipment: using a 1 to 5% solution in water, for optimum cleaning performance.

#### Features and benefits

- Excellent cleaning performance ensures surfaces are left clean and streak-free.
- Safe for use on all exterior vehicle surfaces including paintwork, metal, rubber, plastic and glass.
- Contains corrosion inhibitors, which protect metal surfaces against rusting.
- Water based and non-flammable.
- Sinopec Truckwash is diluted with tap water before use, and applied at a concentration of between 1 and 5%.

# **Product Data Sheet**

Typical data

Sinopec Truckwash Detergent	
Appearance, visual	Colourless liquid
Odour/smell	Slightly aromatic
pH (25℃), ASTM D 1287	7.07
Density @ 20°C, kg/l, ASTM D 1122	1.0332
Effect on finishes for automotive vehicles, rating, ASTM D 1882	No effect
Low-temperature stability (0°C±2°C for 24 h), Q/SH303 494	No separation
High-temperature stability (40°C±2°C for 24 h), Q/SH303 494	No turbidity

These data are given as an indication of typical values and not as exact specifications.

## Accuracy of information

Data provided in this PDS is typical and subject to change as a result of continuing product research and development. The information given was correct at the time of printing. The typical values given are subject to variations in the testing procedures and the manufacturing process may also result in slight variations. Sinopec guarantees that its lubricants meet any industry and OEM specifications referred to on this data sheet.

Sinopec cannot be held responsible for any deterioration in the product due to incorrect storage or handling. Information on best practice is available from your local distributor.

## Product and environmental safety

This product should not cause any health problems when used in the applications suggested and when the guidance provided in the Material Safety Data Sheet (MSDS) is followed. Please consult the MSDS for more detailed advice on handling; MSDSs are available from your local distributor. Do not use the product in applications other than those suggested.

As with all products, please take care to avoid environmental contamination when disposing of this product. Used oil should be sent for reclamation/recycling or, if not possible, must be disposed of according to relevant government/authority regulations.

The SINOPEC trademark is registered and protected.
